

MATIRIA
The Art of Heat

**FLEXY
RADIATOR**

FLEXY RADIATOR

CHARACTERISTICS

- Different sizes available, including made-to-measure.
- Can be installed vertically or horizontally.
- Easy to install, just one suitable plug needed.
- No connection to the water mains.
- No maintenance.
- Highly efficient.
- Even heat distribution.
- No pollution.
- No CO2.

NO HARMFUL ELECTROMAGNETIC EMISSIONS

CERAMIC

The ceramic outer shell, which comes in a variety of colours and gives the heater its overall look, houses the internal heating components. Poor thermal conductivity and large mass allow the heat produced to be stored and gradually released to the surrounding environment. The microporous nature of the ceramic material reduces and dispels excess humidity.

CARBON FIBER

Carbon fiber is flexible, does not oxidize, does not produce harmful electromagnetic fields during electricity flow, has no dimensional variations, as the temperature changes, or deterioration of ohmic values. No wearing and no maintenance necessary. Its high resistivity permits significant energy savings.

DESIGN

With fanatical attention paid to even the smallest detail, the stunning design is simply that of a modern work of art.

HEAT REGULATION

The unit can be equipped with cable or wireless thermostat with a receiver mounted on the electrical feeding plug, so to optimize the on/off function in accordance with the ambient temperatures desired or the pre-programmed temperatures desired at different hours.

MODEL	POWER SUPPLY	POWER RATING	WEIGHT (kg/lb)	DIMENSIONS (cm/in)
FLEXY8: TM04.A	230 Vac 50/60 Hz	490 W	56/123.46	160/62.99 x 50/19.68 x 7/2.76
FLEXY5: TM04.B	230 Vac 50/60 Hz	350 W	35/77.16	100/39.37 x 50/19.68 x 7/2.76
FLEXY3: TM04.C	230 Vac 50/60 Hz	150 W	21/46.30	60/23.62 x 50/19.68 x 7/2.76

CONFORMITY

This product is manufactured in conformity with the electrical safety standards set by Low Voltage Directive 2014/35/EU. This product is in conformity with Electromagnetic Compatibility Directive 2014/30/EU, concerning the standards for electromagnetic emissions.
